PRODUCT BRIEF | 2U 250 TB Content Delivery Platform

NSS-2340

2U 250 TB Content Delivery Platform

The Viking Enterprise Solutions (VES) NSS-2340 is Intel Xeon E5-2697v4 based system which offers up to 250TB of capacity with spinning LFF drives and SFF SSDs. It is designed to fit in a 2 post or 4 post rack, it can be deployed at edge points of the network for minimizing network load. The system operates in environment of up to 40°C. With it's exceptional thermal management and drive rotation vibration mitigation, the platform is highly reliable. NSS-2340 supports AC and DC redundant supplies for maximum flexibility. It can operate indefinitely with a fail fan minimizing service. A simple LCD panel with button allows basic functionality without any KVM connection.

2U Rackmount Enclosure
▸ Dimensions: 30" L X 17.5" W X 3.5" H

▸ Weight for VES NSS-2340: 85 LBS

AC Power
▸ Input Voltage: 90-264V AC 47-63 Hz

▸ DC Input: 48V-60V DC 20A MAX

Monitoring & Reporting
▸ Standard IPMI interface

Environment Protection
▸ RoHS & WEEE compliant

Ethernet Connectivity
▸ Up to 120 Gb/s Ethernet connectivity via OCP & PCIe interface in dual server configuration

Drive Configuration
▸ Up to 24 LFF drives

▸ Up to 10 SFF SSD
